- 4) Incorporate and assess institutional General Education student learning outcomes. Courses will map their coursespecific student learning oucomes, assignments, and assessments with the targeted General Education student learning outcomes (and associated contributing outcomes for Tier 1, Tier 2, AKNT, and D&I courses). This alignment will be reflected in the course content guide in CIM. Wholdhow many student learning outcomes will be included and assessed vary by the type of requirement the course meets:
 - a) Tier 1 courses- incorporate and assess the appropriate Tier 1 categorical learning outcome and associated contributing outcomes foundthe electronic curriculum management system (CIM).
 - b) Tier 2 courses incorporate and assess the appropriate Tier 2 categorical learning outcome and associated contributing outcomes found in the electronic curriculum management system (CIM) as well as at last one other skill
